

Dear Paige Wymore-Wynn  
Clerk of Court  
Oct 15, 2016

RE: Brian Richman  
Case #. 16-3387-CV-S-MDH-P

I am writing in the above named case so additional pages can be attached as Attachments to original Filing.

These would have been sent with original Filing but this institution would not give me copies of them however I was able to get originals from family to send to you, that I kept for personal records of.

Attachments to Civil Case  
Civil Case # 16-3387-CV-S-MDH-P

There are 11 pages total for the Courts-records.

Thank you for your time on this matter.

Respectfully

Brian Richman 10/15/16

Brian Richman

**Christian County Sheriff's Office**  
**Sheriff Brad Cole**

Date: 8/1/2016

To: Whom it May Concern

From: Megan Tayman

RE: Richman, Brian Andrew DOB: 07/24/1968

Brian Richman was brought to Christian County Jail on 6/26/2016 on two Christian County Warrants and is still in our custody. Case number's 15CT-CR02237-01 & 16CT-CR01306-01.

Megan Tayman  
Jail Administrative Assistant

**INMATE NAME:** Brian R. Lehman

**POD & CELL:** A41-207

**SENTENCED { } UNSENTENCED { }**

**PART A- INMATE REQUEST:**

*Being that civil rights don't discriminate I being a state detained man who has contracted a staff infection from biohazard waste & being made to sleep in clothes soaked in waste from 10:45pm till 11:00am believe it possible that I very well could've gotten anything else from same. Being much worse than staff, even after requesting numerous times for clean clothes to sleep, and make to sleep on day from floor wet with waste from toilet over, and one mat with a sheet that did not come from staff but another detainee because I could see I was cold & wet. I am not out of the scope of civil rights by asking for immediate*

**DATE:** 7/22/2016 **-INMATE SIGNATURE** Brian R. Lehman UCCJ-207

**PART B- ADMINISTRATIVE RESPONSE**

*Release to seek medical treatment and seeking for other possible infections and or diseases that could have come from this. I am currently being treated for a staff infection from this incident and the antibiotics are not working. my arm needs to be lanced open and drained of infection (elgated) a ldris is not for to be done in custody or jail inmate. I do not believe that the assistance provided to me was acceptable because this comes down to a man's life and possible life if this infection goes septic to blood poisoning. Everything I am saying can be backed up as stated by jail records, arrest log, and a video.*

Christian County Jail A Pod D127  
Bio Hazard Clean up in Shower Shoes

10:45 PM

On July 8th at lockdown we reported to staff that our toilet over flowed. As we had reported a couple days earlier that had been happening. my Bukey Jackson Boyle had been given a sanction for using toilet in other cells, witch is the Regular at overcrowding anyway (and should be expected when a cells toilet is occasionally overflowing) (He was given 15 day lockdown for using another cells toilet)

at this time we have been waiting for staff to bring us clean clothes towels ect. after earlier having been given plunger and mop to clean up sewer in our cell in shower shoes and bare feet it is now 1:00 AM and we still await clean clothes and products to clean ourselves after wading in fecies in attempt to clean up

there is no reason we should not be priority to clean ourselves up especially when the guards wont go in cell with shoes

②

Unsanitary and a Health hazard even when I asked for rubber boots to continue cleaning, upon exiting after trying to keep it from spreading to inmates in the day room <sup>on the</sup> I was asked to return back in the cell to retrieve a disinfectant bottle that is/was empty.

Even in an attempt to help contain the spread of SUIGE we have not been given the decency of any way to clean ourselves or clean clothes. everyone in this pod on July 8th in Christian County is witness to this and should not be happening, also witnesses to the toilet stopping up on many previous occasions.

Staff and medical staff alike knowing that SUIGE is a hazard and should be handled as such. Officer Schodisky (SM) was notifying a higher up (Lieut, Capt Shift) where I did not know but at his time we are being made to lay in clothes and wet feet of SUIGE.

3

immediately upon shift change I notified officer [redacted] on 7/7/16 at 2:00 AM. What had previously happened affected for clean clothes towels and blankets as can be seen if we are laying on floor in day room wet from sewer NE blankets wet and still yet we are left laying here without concern by any staff (sic, Luiten, Cap, or Sheriff) this is so far off the chart of what right I don't know how to explain it.

I am laying with only a sheet as blankets are soaked wet and it is very cold.

Why is no one even giving the decency of allowing us clean shoes and clothes/blankets I have asked and continue to ask all staff coming through their checks I am told everytime they will check or they will do/get for us.

This is not how a person should be treated by anyone anywhere. Asking to talk to Luit/Captain/Sheriff I'm told that not how it works here.

(SAVE)

## Legal Documentation of Biohazard

⑤ Day officer <sup>Bishop</sup> just asked me to use gloves and put blankets sheets clothes in Trash Bags so it could all be put in Bio Hazard Trash I Refused

For obvious reasons Bio Hazard That I was soaked in and now they throwing clothes in trash ~~that~~ that I was forced to wear all night long. Time 10:34 AM Told me Corporal Snow wanted me to Fill out informal Res to staff I refused saying this is of criminal legal measures not internal <sup>informal</sup> resolutions.

~~that~~ I have told every officer since this incident that I wanted to go to be checked out for any infectious or diseases from being exposed to Bio Hazard material and I have been and am being ignored.

I have asked for audience with Corporal Snow, Sergeant, Chief, and the Sheriff as well as a Judge.

5:45  
or

6:00 Am Staff comes through (for count I tell her that we have been on the floor for hours now wet from sewage and cold No boater blanket made to sleep with just sheet on on floor all night.

The Co that reported issue at 10:45 lock down told me they short handed and he had to take in prisoner to Hospital that was more important then us laying in sewage wet clothes and that why we had to wait till approx 6:00 Am I have been given clean clothes Boyle has not he still waiting to get cleaned up personally.

I have asked to speak to Lieutenant Seargent, Sheriff, Judge. So far 7:00 being ignored just like all night asking for clothes so we could clean up after Hazardous waste, and that <sup>wed</sup> be gotten fresh blankets sheets beds to sleep on once we were cleaned up. Lies.

Now 9:20 Am Still No blankets No mat cold to the bone from sleeping on floor. Still No Levitt, Cap Sheriff or Judge that I asked Staff to speak to. This has got to stop.

Staff is supposed to report what they see or even what is received.

⑦

<sup>Thurs</sup>  
7/18/16

also there is No Congestion in chest and throat doesn't appear to be Red often for maybe Allergy type agitation. Medical Staff is lying to me on Regular basis. Proof

After being told all sounded & looked good I was given Medicines 8 times. I have taken the meds only so it will be documented and all they have told me will be proof of lies.

Noon today Med pass I was given once again Meds Mucinex for Congestion that I was told earlier I did not have. And I was told the Doctor would see me on Wednesday after having been put off this long over a biohazard incident is Unheard of it requires immediate Attention. not 10 day delays.

<sup>Wed</sup>

7/19/16

Today I was taken to see doctor for obvious stuff on body but was told that anything I may have contracted from a biohazard spill (in this case raw sewage) would take more the thirty (30) days to show itself, meaning that the antibiotic I was/am being given is an antibiotic "specifically" for sewage spills and contact with raw sewage. I asked for release to get checked & it's being ignored.

6.

my requests are being ignored as I suspected would be, this is not being taken serious by staff.

They joke about it making light of this all while once again the clothes and bedding that I was made to sleep in were put in Bio Hazard trash and thrown away destroyed.

every day since this incident I have asked to speak to someone in charge ie Capt, Sgt, Sergeant, Sheriff Dept Sheriff.

7/12/16

all of my Requests have been ignored This is beyond Normal or Legal.

I will continue making Requests until I am Released when I will File Criminal charges against the Jail, Sheriff and staff.

7/17/16 Request to speak to Nurse, Seen nurse she was ~~unaware~~ <sup>unaware</sup> that I was made <sup>to</sup> sleep in hazardous clothes all night long. ~~the nurse~~

7/18/16 Spoke to another nurse today I was informed that (though I've been sick for several days) No Fever temp was 98.6, <sup>SAT</sup> O2 unknown would not tell me, and BP was 126/98 when the numbers I seen were 186/98 which would be closer to correct. Since I have high BP American since for years.

⑤  
wed  
7/20/16

My requests for medical attention are being ignored. However, it is moving its way up rank. The doctor just as the rest of the staff are passifying me skirting around the seriousness of health issues in this situation. My life & health hangs in the balance with these peoples decisions and not allowing me to be checked out by professional medical staff, as I have pointed out I am being lied to on many occasions and it continues. Antibiotics were to be given today for infections caused by raw sewage but are not in yet. When after all this time I should have already been on them, but once again made to wait. Level 2 grievance sent back and signed by Captain See Copies. It is answered "This has been handled". and I quote.

7/21/16

I was told by the nurse that I am on an antibiotic called Levaquin. The doctor told me it was for sewage type infections after telling me there wouldn't be any sign of infection for 30 days or so but is giving me an antibiotic for biohazard spills such as waste. ?? harm

9

continued

7/21/16 I have told the nurse at Med  
Call or pvt pass that my arm is swollen  
and is as can be seen obviously infected.  
with what can only be staff infection.  
By the looks of it.

7/22/16 given new bandage for elbow  
nobody has checked it I have told  
the nurses and officers of the pain  
I'm in and my arm is throbbing.  
Today is second day on antibiotic  
and no change in infected area.  
it is reaching dangerously swollen -  
and if it gets worse could become  
sepsis blood poisoning.  
1:00 AM spoke to Pod officer told her  
my arm hurting & ~~the~~ swollen discharge  
is green in color she was going to  
tell someone else of my problem  
and get back to me.  
The infection is getting to the point  
that its causing unbearable pain.

Something has to be done.  
3:00 AM arm throbbing still and officer  
tells me can do nothing until next  
Nurse comes in also informed  
me that she notified Sgt on/about  
my arm and he/she said nothing we  
can do. This is not a bruise or broke  
bone this is an infection and not being treated so

16 OCT 25 PM 2:59

RECEIVED

11/27 7/24/16 Starting to feel body soreness all over deep in joints, Not normal for me I will ask again to be taken to Hospital to have blood tested.  
I have been being harassed by staff on a regular basis in this jail by all the staff on different occasions for no reason. even at my grandfathers house outside of this county jail. there is no cause for this and any action I make to get letters out they are Denied  
What all this stems from is as far as I can tell Brad Cole.

190

7/23/16

Spoke to nurse and she seems to think she/they can play this off as a bite or so it seems if I didn't catch something from this bio hazard incident. Why am I being given Antibiotics for anything. The proper people are brushing this off when they should be helping me. These types of infections are treated a certain/specific way because of damage they can cause, to a body/person.

I've expressed how painful it is and am told to "grow up". From Medical Staff Head Nurse.

7/24/16  
3:15

When I see Med staff tonight I'm going to tell them that this need to be lanced open and drained or infection will not go away and it is very painful.

7/25/16

at 8:40 I'm my level 3 to the Sheriff has been denied denying me for medical treatment.

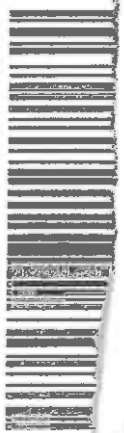

7/26/16

Even with Antibiotic small sores keep coming up all over my body that won't heal and won't take me to get own lanced & packed with gauze or infection and pain. I'm sick.
